

## Flu Shot Drive-Thru Clinic This Saturday 1-3 PM

---

**Please read all details carefully:**

### **FOR MY PATIENTS AGED 65 YEARS AND OLDER ONLY:**

This **Saturday, September 10th between 1-3 PM** I will hold a drive-thru flu vaccine clinic in the parking lot of my building at 555 N. New Ballas Rd. This initial drive-thru clinic is **ONLY** for my patients 65 years and older and we will be administering only the High-Dose Quadrivalent Flu vaccine while you remain in your car - rain or shine.

### **FOR MY PATIENTS UNDER THE AGE OF 65 ONLY:**

For those of you under the age of 65, I am expecting the regular quadrivalent doses shortly and will update you once we have flu vaccines in stock for you.

---

We are **not scheduling appointments for the drive-thru flu clinics** - please arrive in your car anytime during the designated flu shot hours. I have only enough flu vaccines for my patients. Unfortunately, I will **not have extra doses** this season available for other family, friends, neighbors, or anyone else who is not my current patient.

**Attached is a flu shot form which must be completed** before you are able to receive your flu shot. Please print out the form, complete it at home, then bring it with you to the flu shot clinic. If you are not able to print and complete this form, we will have paper forms to give to you in the parking lot but they will need to be completed before we can administer your vaccine. Just as you would while visiting my office, please **wear a mask** while in your car so we can safely give you your flu shot.

Daniel R. Jasper, MD
