

**Final Flu Shot
Drive-Thru Clinic
Monday, October 10th, 5-6 PM**

Dear Patients,

I plan to hold one final drive-thru flu shot clinic this season in my office parking lot for my patients on **Monday, October 10th from 5-6 PM**. We have High Dose Quadrivalent vaccines for patients 65 years and older along with Regular Dose Quadrivalent vaccines for those under age 65. We are **not scheduling appointments for the drive-thru flu clinic**- please arrive in your car anytime during the designated flu shot hours.

I have only ordered enough flu vaccines for my patients. Unfortunately, I will **not have extra doses** for anyone who is not my current patient.

[Click this flu shot form](#) which must be completed before you are able to receive your flu shot. If you are able to: please print out the form, complete it at home, then bring it with you to the flu shot clinic. If you are not able to print and complete this form, we will have paper forms to give to you in the parking lot but they will need to be completed before we can administer your vaccine. Just as you would while visiting my office, please **wear a mask** while in your car so we can safely give you your flu shot.

Please reply to this email if you have further questions.
